

NEL BRAVIOUS FENCING PTY (Ltd)

Occupational Health and Safety Act, No. 85 of 1993

APPOINTMENT AS EXCAVATION INSPECTOR

I, _____, representing _____, by the powers invested in me to appoint persons in terms of the Occupational Health and Safety Act, and in terms of Construction Regulation 13.1(b) to the Act, hereby appoint you, _____ as Excavation Inspector.

Your appointment will be with effect from _____ until further notice and supercedes any appointments in terms of the same provision you may have.

In terms of this appointment, your area of responsibility will be as follows:

_____, at _____

Your duties will include:

- 1 Evaluating, as far as is reasonably practicable the stability of the ground before excavation work begins.
- 2 Taking suitable and sufficient steps in order to prevent any person from being buried or trapped by a fall or dislodgement of material in an excavation;
- 3 Preventing any person from working in an excavation which has not been adequately shored or braced, subject to permission being given in writing by yourself, upon evaluation of the site conditions;
- 4 Where any uncertainty pertaining to the stability of the soil still exists, the decision from a professional engineer or a professional technologist competent in excavations shall be decisive and such a decision shall be noted in writing and signed yourself and the professional engineer or technologist, as the case may be;
- 5 Ensure steps are taken to ensure that the shoring or bracing contemplated in paragraph (b) is designed and constructed in such a manner rendering it strong enough to support the sides of the excavation in question;
- 6 Ensure that no load, material, plant or equipment is placed or moved near the edge or any excavation where it is likely to cause its collapse and thereby endangering the safety of, any person, unless precautions such as the provision of sufficient and suitable shoring or bracing are taken to prevent the sides from collapsing;
- 7 Ensure that where the stability of an adjoining building, structure or road is likely to be affected by the making of an excavation, the steps are taken that may be necessary to ensure the stability of such building, structure or road and safety of persons;
- 8 Ensure convenient and safe means of access are provided to every excavation in which persons are required to work and such access shall not be further than 6m from the point where any worker within the excavation is working;
- 9 Ascertain as far as is reasonably practicable the location and nature of electricity, water, gas or other similar services which may in any way be affected by the work to be performed, and shall before the commencement of excavation work that may affect any such services, take the steps that may be necessary to render the circumstances safe for all persons involved;

- 10 Inspect every excavation, including all bracing and shoring:
 - (i) daily, prior to each shift;
 - (ii) after every blasting operation;
 - (iii) after an unexpected fall of ground;
 - (iv) after substantial damage to supports; and
 - (v) after rain,and pronounce on the safety of the excavation. In this regard, the results are to be recorded in a register kept on site and made available to an inspector, client, clients agent , contractor or employee upon request;
- 11 Ensure every excavation which is accessible to the public or which is adjacent to public roads or thoroughfares, or whereby the safety of persons may be endangered is;
 - (i) adequately protected by a barrier or fence of at least one metre in height and as close to the excavation as is practicable; and
 - (ii) provided with warning illuminates or any other clearly visible boundary indicators at night or when visibility is poor;
- 12 Ensure that all precautionary measures as stipulated for confined spaces as determined in the General Safety Regulations are complied with when entering any excavations.
- 13 Ensure that, where the excavation work involves the use of explosives, a method statement is developed in accordance with the applicable explosives legislation, by an appointed person who is competent in the use of explosives for excavation work and that the procedures therein are followed; and
- 14 Ensure warning signs are positioned next to an excavation within which persons are working or carrying out inspections or tests.

You are to ensure that you are familiar with your responsibility, as outlined above, and if you have any queries in this regard, you are to bring it to the attention of the person you report to, or to myself. You will be provided with all the means necessary to enable you to fulfill your responsibilities in terms of this appointment.

You are to take all reasonably practicable measures, within your area of responsibility, to ensure the general safety and health of persons, and the enforcement of health and safety requirements as may be imposed by the Company, the applicable Government Department or the Act and Regulations. If you, for any reason, are unable to take such measures, you are to bring this to the attention of the person you report to, or to myself.

You are to maintain a good working knowledge of the provisions of the Act and Regulations made in terms of the Act, as well as other legislation which may have relevance to your responsibilities.

You are to ensure that you are familiar with all Company health and Safety standards. This will include, but is not limited to instructions, safe working procedures, general health and safety rules, and protective equipment and clothing requirements.

You are to ensure that you are familiar with all permits, permissions and exemptions as may be imposed by external authorities including, but not limited to, the Department of Labour. You shall assist in ensuring that, as may be applicable, the same documents are kept up to date at all times.

Kindly confirm the acceptance of this designation and understanding of the duties involved by signing this letter of designation and returning it to me. Please keep a copy for your records.
